

System 58 epitomizes functional aesthetics. German designer Simon Desanta combines classic European styling with world-class engineering to create a synthesis of function, comfort and high-design. System 58 is the stylish and ergonomic choice for executive and conferencing environments.

Classic European details such as the half-moon cutout, optional chrome accents and contoured tailoring communicate a careful attention to detail. German engineering and ergonomic technology ensure ease of use and durability. The mid-back, high-back and side chairs enhance office, conference and boardroom settings.

# System 58

## European Appeal

System 58 is a European-influenced chair, offering users a graceful profile, contoured tailoring, German engineering, and a matching guest chair. The thin profile creates a clean look and fits well in smaller executive offices. Standard comfort adjustments include bio-synchronized tilt, pneumatic-height adjustment and 4-position back lock.

With high-back and mid-back options and a sled-base guest chair, the System 58 seating family harmonizes beautifully with executive offices, boardrooms and conference settings.

## Standard comfort adjustments include:

Bio-synchronized tilt mechanism, pneumatic height adjustment, and 4-position back lock. Choose from black (standard), chrome or brushed aluminum trim. Black or upholstered arm caps.

### System 58 High-Back

SH:	16" - 20½" (406mm-521mm)
